ABOUT ME

I'm Osanda Muthukumarana, a passionate software engineer and full-stack developer currently studying at the Sri Lankan Institute of Information Technology (SLIIT). With expertise in front-end and back-end programming, I specialize in web development, creating scalable and user-focused solutions. Driven by a desire to solve real-world problems, I leverage modern technologies and frameworks to build impactful applications. I am committed to lifelong learning, teamwork, and tackling creative challenges, aiming to contribute meaningfully to the software development and web development industries through innovative projects and knowledge sharing.
